Powell County Crops.

Talk about Powell county farm lands, the wheat crops in this county from what we can learn will average more bushels per acre than will the crops of either our neighbor Bluegrass counties, and there are not a half dozen farms in the county but what one crop grown on the land will pay the cost of same. By this we mean that if all the cleared poor land be put in peas and all the best land put in corn and the same well tilled and cared for, the money these crops will bring will pay for the land. Can you find land that will do this in our Bluegrass counties where so many of our best farmers are moving to each year? Those who contemplate a move from this county should first study well the merits and productiveness of our own much neglected, though really valuable land before deciding to make a change of any kind.

New Kind of Topographic Map.

The United States Geological Survey is making a great topographic map of the United States. More than 2,000 atlas sheets have been issued, showing nearly 40 per cent. of the surface of the country. These sheets represent areas bounded by parallels of latitude and meridians of longitude and for most engineering purposes are entirely adequate. However, a strong demand has grown up for topographic maps printed by county units, and to meet this popular demand the Survey has just issued its first county topographic map. Jefferson County, Ky., was selected for the experiment, and this map is now ready for distribution. The area was surveyed in co-operation with the Kentucky Geological Survey, the State and the

Federal surveys each contributing to the cost of the field work.

The scale is 1:62,500, or approximately one mile to 1 inch, and the contour interval is 20 feet. Every physical characteristic of the area is shown by the brown contour lines, which ramify in every direction. These lines indicate the approximate altitude of every acre in the county. They show graphically every hill and valley, peak and slope. Every river, stream, and swamp is depicted on the map, all the works of man—the railroads, trolley lines, wagon roads, bridges, houses, churches, schoolhouses, and reservoirs—are shown in their exact relative positions to other and to the natural features of the country. Even the difference between matted roads and ordinary turnpikes is indicated.

When it is recognized that every man lives on a farm can locate his farmhouse on this comparatively small-scale map with exact reference to adjoining farmhouses or to the natural features of the county, such as streams or hills, as portrayed by the fine hairlike contour lines, it can be seen that the map is a high product of the art of the surveyor, the engraver, and the map printer. The map is 30 inches by 27 inches and is printed in three colors. On the margin are shown 28 conventional signs, also printed in colors, by aid of which every feature shown on the map can be readily interpreted.

The Jefferson County maps are sold by the Geological Survey at the nominal price of 20 cents a copy, or at the wholesale rate of 12 cents, if at least \$3 worth are purchased.

A "gusher," producing 200 barrels of oil a day, was brought in at Hartford, Ohio county Tuesday.

Postoffice Department after Us.

Washington, July 1, 1912. Publisher of Clay City Times, Clay City, Kentucky.

Sir:

Your attention is invited to amended paragraph 3, section 436, of the Postal Laws and Regulations, appearing in the December, 1911, Postal Guide, reading as follows:

"The right of publishers to extend in good faith credit on subscriptions is recognized and will not be abridged, and although all subscriptions are regarded as expiring with the period for which they were obtained, nevertheless in order to give an opportunity to secure renewals, copies of their publications will be accepted for mailing as to subscribers at the usual second-class rates of postage for a period of one year from the date of expiration; but copies sent to persons after one year from the date of the expiration; but copies sent to persons after one year from the date of the expiration of their subscriptions, unless such subscriptions be expressly renewed for a definite time, together with an actual payment of subscription or a bona fide promise of payment, will not be accepted at the pound rate, but will be accepted at the transient second-class rate of one cent for each four ounces or fraction thereof, prepaid by stamps affixed."

The purpose of this regulation is to give publishers a reasonable opportunity to secure renewals of subscriptions, and at the same time relieve the postal service of the burden of carrying copies of publications as to subscribers at the usual second-class rates of postage to persons who are not such in fact.

In order that the Department may ascertain whether the regulation is being uniformly complied with, you are requested to furnish, with regard to the circulation of the next issue of your publication, the information asked on the reverse side of this sheet, sending it under cover of the inclosed envelope, which requires no postage.

Respectfully,
James J. Britt,
Third Assistant Postmaster General.

We publish the above letter, which is self-explanatory, that our subscribers may know that we are not trying to deceive them. We will in thirty days comply to the letter of the law, and remove from our list every subscriber who owes for more than twelve months subscription. We are not afraid to credit them but "Uncle Sam" says we cannot and we will not. Subscribers are on our books who owe us for four or more years. These subscribers will pay some time and we would gladly send them the paper until convenient to do so, but submitting to the will of the postoffice department, we will stop the paper now going to all who owe for more than one year.

Wilson and Marshall Nominated.

Governor Woodrow Wilson, of New Jersey, was chosen on the forty-sixth ballot by the Democratic National Convention Tuesday to make the race for President. Early yesterday morning, Gov. Thos. R. Marshall, of Indiana, was given the nomination for Vice President at the conclusion of the second ballot. The platform was adopted and the convention adjourned sine die. An effort to have Speaker Clark stand for the vice presidency failed. In a statement given out he announced his support of the ticket and declared that he lost the nomination for the presidency through the Col. Wm. Jennings Bryan.

INDEPENDENCE DAY THOUGHTS.

The Times feels it a duty to confront every boy who is inclined to be wayward, only through a youthful and fickle idea, with some thoughts of temperance. It is, a custom it seems, for boys when they congregate at a picnic gathering in Clay City to tap, at first lightly then later, probably, heavily, of liquor, which is evidently the greatest enemy of both soul and body. Heretofore, there has been no effort made to hinder these precious youths from taking the first step into the door of degeneration. Our admonition is in text, "Beware of the first drink."

Today is the last Independence day that liquor will be sold in Clay City legally. Celebrations hereafter must be made minus the serpent generator. This being the case let us try to celebrate the day in a peaceful, sober and honorable manner, enjoying ourselves to the full as God who made us would have us do. Enjoyment actuated by harmless indulgences and innocent sports is surely not displeasing to the One who created us all. Let us by our acts today prove to the world that Clay City intends to make a sober, quiet and orderly town, fully determined to have what we do have in a peaceful and happy manner.

"Give me liberty or give me death" said Patrick Henry, but the liberty the old statesman was talking about then was very different to the "personal liberty" that is talked about now on this the glorious day of liberty. Freedom from the thirst of alcohol is ten thousand times more to be desired than the freedom and liberty that Patrick Henry spoke of and the freedom for which he was willing to sacrifice his life.

Money cannot be wisely spent in the saloon, nor is it a house in which you may gain knowledge. Neither do those seeking peace and happiness enter over the threshold to the bar. Profit by your going therein all belongs to the vender of the stuff that will, if persistently indulged in, destroy both soul and body. "Beware of the first drink" of today, if not of your life.

Boys, if you can attend the picnic in Clay City today and have courage enough in your heart and soul to stay out of the saloon, and not elsewhere take a drink, you have established one step of manhood in the pathway of your life.

When spirits enter into the stomach, remember it is driving

from your heart the spirit of "eternal life". "No drunkard shall enter into the kingdom of heaven."—Bible.

Before you act, stop twice to think:—

"Beware of the first drink"—

Don't begin this 4th of July

What'll make mother, wife and sister weep and cry.

The fancied joy you may get from a drink today is counterbalanced by deep distress in the heart of your mother, your father, your sister and your sweetheart. It may make you and the devil smile but is the smile worth its cost?

If you can't "Beware of the first drink" of your life you can beware of the first drink of today. If this is your case you can do right and do no more.

They will tell you today, "One drink can't hurt you". Then reply "One drink too much will" and the first drink is always one drink too much.

Does a drunken man celebrate the 4th of July or the red liquor that "drowns his troubles" and straves his wife and children?

Boys, remember the Independence day to keep it wholly from the saloon.

Woodrow Wilson is our man and has been all the time as a choice between him and any other candidate in the field, Underwood excepted. Kentucky however was so wild over Clark that it was hardly safe to mention Wilson. We can support the nominee with the greatest degree of satisfaction. We believe he will be the next President of the United States. Bryan's stamp of approval alone is sufficient evidence of his worth.

Wilson's nomination was not caused altogether because the Courier-Journal fought him so hard though that had a great deal to do with it. The Times is sure he would have been defeated, however, had it not have been for what the Courier Journal did to him before the convention and what Bryan did for him at the convention.

Governor McCreary wanted to go to Baltimore uninstructed that Kentucky's delegation could vote for Clark so long as it was advisable to do so then change to some other candidate. But as the instructions were forced upon him he stood to their binding till the last ballot was taken. The name "Stonewall" is now applicable to our much beloved Governor.

The motto of the Colonel's new party is "Thou shalt not steal." There is no need to steal if all persons had the coin that the Colonel had in his race. They can buy and pay cash.

The Republican campaign fund in 1908 amounted to \$1,665,518.27. The Democratic fund was \$620,644.27. The Republicans had more than a million in excess of the Democrats.

The number who contributed to the Republican fund was 12,230, and to the Democratic fund, 74,000. In other words, the number of contributors to the Democratic fund was six times greater, and their contributions amounted to a million dollars less. The contributors to the Republican fund, as a rule, were interested in legislation, the money coming from such men as J. Pierpont Morgan, Charles P. Taft, Carnegie, Charles M. Schaub, John Jacob Astor and the heads of the various woolen mills who desired the passage of the Payne-Aldrich law, together with donations from the Wall street banks, railroad magnates, and individuals representing the tariff trusts.

The contributors to the Democratic fund were not personally interested in legislation.

The contributions to the Republican fund ranged from \$110,000 downward, while contributions to the Democratic fund ranged from \$5,000 downward.

Lieutenant Governor McDermott had his first experience last week acting as Governor in the absence of Gov. McCreary at the Baltimore convention. McCreary is making the best Governor Kentucky ever had. He stays at his office and is always ready to perform his duty.

Indolence may choose poverty as a companion or it may choose rascality and wealth. Of the two it is better for the individual to select the former than the latter, for in this case it will then only harm the individual and not the community in which he lives as well.

We heard a Democrat say the other day he had but one objection to the nominee for President and that was he bore the same name as the lamentable Gov. A. E. Willson of Kentucky.

Floyd Byrd, the noted and successful practicing attorney seems to have found in Lexington a much richer field for his line of practice than Breathitt county ever was.

Bryan is a "Stand-pat" sure as you are born for if he had not

stood pat Wilson would never have been nominated.

"Prohibition does not prohibit," says the whiskey gang. Well, does the law against selling to minors prohibit? does the law against selling on Sunday prohibit? Does the law against carrying liquor into other local option territory prohibit?

The liquor laws are violated in wet territory ten times to where they are violated in local option territory once and every body knows it. There is not a law in the land today but what is violated, but must we repeal all laws that are violated?

LOCAL BREVITIES.

C. Shimmessel and T. J. Kirk were in Irvine Monday.

Henry White, of Norwood, Ohio, is with friends in the city.

W. T. Wood, of Winchester, was here a few days this week.

Miss Fannie Mize, of Quick-sand, is visiting relatives in the city.

George Tomlinson, of Winchester, was observed in the city Saturday.

J. W. F. Williams is attending Circuit Court now in session at Beattyville.

Mrs. Maud Moore, of Sardis, Miss., is visiting her parents, Mr. and Mrs. Pete Phillips, and other relatives in the city.

Have you got your individual drinking cup yet? If you start off without one you will get pretty dry before you get back.

J. B. Derickson was tried at Stanton Monday on a charge of lunacy and sent to the asylum on the afternoon train. Mr Derickson for some time has been in feeble health.

Today is the nation's holiday and should be celebrated in grand style, but not in reveling and drunkenness as is the custom of the over enthusiasts. We have a picnic in Clay City today and trust the day will be spent in the most quiet way possible.

One hundred years ago 90 per cent. of the population of the United States lived on the farms. Fifty years ago two-thirds of the population was in the country. Today we have scarcely one-third of our people living on the farms and ranches.

The Choice of a Husband is too important a matter for a woman to be handicapped by weakness, bad blood or foul breath. Avoid these killhopes by taking Dr. King's Life Pills. New strength, fine complexion, pure breath, cheerful spirit—things that win men follow their use. Easy, safe, sure. 25c at all dealers.

The good rains of the season continue and all crops continue to keep growing. The rains we are having are too the kind we most appreciate, "not gully washers but nubbin stretchers" except that the nubbins have not yet appeared to be stretched, though roasting ears will soon be on the bill of fare.

What Makes a Woman? One hundred and twenty pounds, more or less, of bone and muscle don't make a woman. Its a good foundation. Put into its health and strength and she may rule a kingdom. But that's just what Electric Bitters gives her. Thousands bless them for overcoming fainting and dizzy spells and for dispelling weakness, nervousness, backache and tired, listless, worn out feeling. "Electric Bitters have done me a world of good," writes Eliza Pool, Depew, Okla., "and I thank you, with all my heart, for making such a good medicine." Only 50c. Guaranteed by all dealers.

We are a day early this week. We did this in order to be able to receive our callers on the 4th and to see how one feels to be ahead of time.

In his charge to the grand jury, Circuit Judge, Charles H. Kerr attributed the many homicides in Fayette county to the habit of carrying concealed deadly weapons.

The trial of "King" McNamara, at Lexington, for the murder of Jacob Kellar was called in Fayette Circuit Court Monday and set for trial next Monday. A. Floyd Byrd has been engaged to aid in the prosecution of the murderer.

McCracken county has formed a Good Goads Association and elected officers. The object of the Association is to see that the roads in all parts of the county are speedily put in good condition. City men have joined hands with the farmers to bring about this result.

Nature's Way To The Blood.

Buried deep in our American forest we find licoroot, queen's root, man-drake and stone root, golden seal, Oregon grape root and cherrybark. Of these Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "Golden Medical Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature's own way. It's just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue."
"More than a week ago I was suffering with an awful cold in my head, throat, breast, and body," writes Mrs. JAMES G. KENT, of 710 L. Street, S. E., Washington, D. C. "Some called it La Grippe, some pneumonia. I was advised by a friend to try a bottle of your 'Golden Medical Discovery.' I tried a bottle and it did me so much good that I feel safe in saying it is the greatest and best medicine that I ever took. My health is much better than it was before using your medicine. It does all you claim for it and is satisfactory."

HOME TOWN HELPS

SCHOOLS OF TOWN PLANNING

Ancient Athens and Rome set us an example of civic centers in the Acropolis and the Forum.

Frankfort, says the New York World, purchased a number of medieval buildings near the city hall and restored them to the original style that they should be in harmony with it.

Berlin has a school of town planning.

Germany has experts like Stueben, Fischer, Gurlert, Henrici and Baumeister, who give advice on town planning and travel from city to city. It is a new profession—"staedtebau."

Frankfort has built an exposition hall about the size of Madison Square garden.

Munich has a group of exposition buildings comprising an auditorium, a theater, a hall for exhibits and a summer concert garden.

When a new street is opened in Brussels or Paris, prizes running as high as \$4,000 in Brussels and equal to one-half the street tax in Paris are offered by the authorities for the most artistic facades.

Vienna remits a percentage of taxes to landlords who will tear down an old building and put up a bigger and better one.

Copenhagen gives a prize every year to the architect who designs the most slightly building and best harmonizes with the older buildings about it.

Paris requires that all office and house fronts shall be periodically repainted or repainted, so that the street shall appear neat and fresh.

All wide Paris streets are in effect parks. They have rows of shade trees. Many of them have a central park strip planted with trees, grass and flowers, and benches are placed there. Along the chief streets are perhaps 100,000 trees, a large number for a city so compactly built.

In practically all European cities pavements are kept constantly in good repair.

All those European cities whose good government has something to teach America are managed not by politicians but by experts.

Ignorance of the law excuses no one, and lest some of our readers through lack of opportunity be unacquainted with the laws made recently by the Legislature, we publish herewith a synopsis of a few of the laws in which we are most vitally interested.

THE DRINKING CUP ACT.

"The use of the common drinking cup on railroad trains and in railroad stations, public hotels, boarding houses, restaurants, or steamboats, in stores or publicly frequented places in Kentucky is hereby prohibited. No person or corporation in charge shall permit therein the use of the drinking cup in common. There must be a printed notice to the above effect in large letters placed conspicuously near the public drinking water receptacle. Violators of this act will be fined not less than one dollar nor more than ten dollars and each day's violation shall be deemed a separate offense."

ENFORCE SCHOOL ATTENDANCE ACT.

"That every parent, guardian, or other person residing within the boundary of the county school district law, and having the custody, control or supervision of any child between the ages of seven and twelve years inclusive, shall cause such child or children to be enrolled in and attend some public, private or parochial school regularly for the full common school or grade common school term in each year in the common school district of the county in which the said child or children may live in this commonwealth."

However, this provision may be waived should the child be taught at home the branches taught in the school for the same length of the school term, and for the purpose of ascertaining this is done, the county court may order the child to submit to an examination by the superintendent. It shall be the duty of the teachers to report at regular intervals the names of parents who fail to comply with the provisions of the act. Any person found guilty of making a false affidavit as to the age of a child with the intention to evade this act shall, if found guilty, be fined in any sum not exceeding fifty dollars or by imprisonment in the county jail not exceeding thirty days, or both at the discretion of the court. Any one violating the provisions of this act shall be liable to a fine of not less than ten nor more than fifty dollars for the second and each subsequent offense.

LIQUOR LAW.

"That it shall be unlawful for any person, firm or corporation to purchase or procure for another spirituous, vinous, malt or other intoxicating mixtures or decoctions, either as the agent of the buyer or the agent of the seller of the said liquors, mixtures or decoctions, either for or without compensation, in any county, district, precinct, town or city where the sale of intoxicating liquors has been prohibited, whether by special act of the General Assembly or by vote of the people under the local option election law of this State." Violation of the act carries a fine of not less than sixty nor more than one hundred dollars, and not less than ten nor more nor more than

HOME TOWN HELPS

FACTORY WORKERS' PARKS

Pennsylvania Manufacturer Lays Out Permanent Grounds About His Buildings.

In a large town in Pennsylvania the owner of a factory started to lay out ornamental grounds about his buildings and everybody marveled. Flower beds and green lawns made their appearance, vines clambered over the buildings and shade trees reared their heads in places needing shade. And still the people marveled. Soon afterwards a new lot was bought, an office building erected, the upper story was fitted up for a recreation room, tables, a hundred chairs, magazines, newspapers, etc., were furnished, and the announcement made that the room would be kept open Sunday afternoons. At this stage the curiosity of the people was so aroused that they asked for an explanation.

The factory owner stated that his business was prospering, enlargement contemplated and so he had recently made a tour of inspection to factory districts noted for business success, no strikes or labor disturbances and the improvements to be seen resulted from that trip to the best industrial centers. To be brief, satisfied employees are a business man's best asset, for without a certain amount of loyalty no concern can endure. This view has evidently come to be the general one, for factory owners for the comfort of employees is now looked to both indoors and out. Some firms, and even some cities, are noted for the landscape beauty on their factory grounds. Some have gone so far as to plant grapevines as ornaments so employees may enjoy fresh grapes in season. Everything for beauty and comfort is provided in summer and fireplaces, games, etc., take care of idle moments in winter.

ADD BEAUTY TO THE STREET

Park-like Effect is Easily Given Using a Little Care in Planting.

With informal planting in a wide parkway a park-like effect could be given on each side of the street that would go far toward counteracting the harsh, monotonous lines of formality in curb, sidewalk and property line; also the flatness and insufficiency of it all from a standpoint of beauty of

forty days imprisonment or both, in the discretion of the court or jury trying the case. The provisions of this act does not apply to common carriers who in good faith deliver liquor, not to exceed five gallons at one time to druggists and physicians or to liquor prescribed on prescriptions by licensed physicians.

outlook. Street trees could be planted at various distances between curbs, singly, in twos and in threes, interspersed with clumps of shrubbery. This would give a narrow park-like effect on each side and could be rendered still more beautiful and picturesque. The walks could gently curve from near one side to the other; the curves not so abrupt or pronounced as to deter the hurrying pedestrian from covering the shortest distance between two given points, yet enough to give beauty and variety to the whole that would prove very satisfying to all observers. All herein outlined has been carried out in many places, not all abroad, but in our own country—in Chicago, for example—therefore there is nothing impracticable about it. The chief drawback is that the returns are not quick enough for our wild-cat real estate boomers. Few can be found sufficiently unselfish or generous enough to plant for future generations and nothing worthy of emulation in this line may be built on a less stable foundation.

Farm Drain Tile

Make Your Wet Land Productive.

By the use of drain tile you can turn that low, wet, useless, swampy field into the most productive spot on your farm. Good tile, properly placed, not only carries off surplus water, it admits air to the soil and makes it easy to work. It improves any soil. The increase in the value of the land is many times the cost of the tile. The first year's crop from tiled land pays for it. Any body can do the work successfully. Very Serious

It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine—

THE FORD'S BLACK-DRAUGHT Liver Medicine

The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not imitate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.

"Cardui Cured Me"

For nearly ten years, at different times, Mrs. Mary Jinks of Treadway, Tenn., suffered with womanly troubles. She says: "At last, I took down and thought I would die. I could not sleep. I couldn't eat. I had pains all over. The doctors gave me up. I read that Cardui had helped so many, and I began to take it, and it cured me. Cardui saved my life! Now, I can do anything."

TAKE CARDUI The Woman's Tonic

If you are weak, tired, worn-out, or suffer from any of the pains peculiar to weak women, such as headache, backache, dragging-down feelings, pains in arm, side, hip or limbs, and other symptoms of womanly trouble, you should try Cardui, the woman's tonic. Prepared from perfectly harmless, vegetable ingredients, Cardui is the best remedy for you to use, as it can do you nothing but good. It contains no dangerous drugs. It has no bad after-effects. Ask your druggist. He sells and recommends Cardui.
